VOLUNTARY ANNOUNCEMENT INNER MONGOLIA JULI ENGINEERING AND BLASTING SERVICES LIMITED ACHIEVED “DUAL GRADE I” QUALIFICATIONS

This announcement is made by Pizu Group Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis to inform the shareholders of the Company and potential investors of the latest business updates of the Group.

The board of directors of the Company (the “**Board**”) is pleased to announce that, following recent approval by the China’s Ministry of Housing and Urban-Rural Development, Inner Mongolia Juli Engineering and Blasting Services Limited (“**Juli Blasting**”), an indirect non-wholly owned subsidiary of the Company, has successfully attained Grade I qualification for general contracting of mining engineering construction, which has thereby become a “dual Grade I” certified enterprise in China, concurrently holding both “Grade I qualification for general contracting of mining engineering construction” and “Grade I qualification for commercial blasting operations unit”.

Within the mining engineering sector, the “dual Grade I” qualifications serve as certification of an enterprise’s comprehensive service capabilities, enabling it to independently undertake large-scale complex engineering projects such as open-pit mining operations, precision underground tunnelling, and tailings pond treatment.

Looking ahead, Juli Blasting will leverage its “dual Grade I” qualifications to advance its high-quality development strategy. This involves establishing a fully integrated industrial chain centred on its core business, with synergistic development across all operational segments.
